## Calvert County Government Consolidates Human Resources and Financial Management Systems

**PRINCE FREDERICK, Md. – March 21, 2023** – Calvert County Government is upgrading and consolidating its human resources and financial management systems to a single cloud-based software application called Workday. While the new system will officially go live for county employees on March 27, 2023, the transfer of data and user training is taking place now through early April. County government services and operations will continue as usual, though minor interruptions may occur.

The Workday system will integrate tools for employee data, compensation, recruiting, training and finance information. In order to facilitate a seamless transition to the new system, vendors doing business with the county have been notified that any invoices received between now and Friday, April 7, will be held for processing until after Monday, April 10. Vendors may contact the Department of Finance & Budget at [FinanceAP@calvertcountymd.gov](mailto:FinanceAP@calvertcountymd.gov) or 410-535-1600 with any questions.

“This has been a major undertaking with intense collaboration between departments to modernize the tools our employees use every day,” said Board of County Commissioners President Earl F. “Buddy” Hance. “We are bringing together business components that are currently managed through different systems into a single tool. While the direct impact of this change will be on county employees, we are certain the public will reap the benefits of more streamlined procedures and accountable business practices.”

The software launch is the culmination of a 12-month, \$2.4 million implementation effort spearheaded by the Technology Services, Finance & Budget, Human Resources and Communications & Media Relations departments to design, develop, test and train users on the integrated system.
