The "updating" of the plans should be based on facts. How can you plan w/o traffic studies? The current plan has adequate objectives and action items but they have not been implemented

What was the best part of this meeting?

The great turn-out.

Please include suggestions for improvement:

# Include issue paper should be part of the mtg. Hand-outs  
Perhaps provide the relevant sections of current comp plan.  
The survey needs to be improved - poorly framed questions

The college was a great venue. Many seem did agreeat job trying to keep the group on topic and not a venting session. #4 not really your fault, too many ppl. with other agendas and trying to push that on the facilitators

What was the best part of this meeting?

Very diverse set of priorities from everyone, but again this is tough to get practical ideas without more scoping (ie money constraints tied to options) start with big community vision and scope down

Please include suggestions for improvement:

Need to start more with overall community vision then scope down from there. We also only have self proclaimed experts + advisors that really don't understand transportation engineering or cost for items. Need to bring in a few that can give a quick down + d.rhy on each project. Also, ppl need to stop pushing other agendas (not much you can do)

Please use the space below to elaborate on your responses:

*Were we supposed to have read the questions before tonight's meeting? I read the issue paper before coming to the meeting, but didn't hear the discussion questions until the discussions started.*

What was the best part of this meeting?

*The good ideas expressed by the people at my table, and the facilitator was good.*

Please include suggestions for improvement:

*I was sitting at one end of my table and had trouble hearing comments from people at the far end of my table. Even though the meeting room was large, the din of conversation at 6 tables was very loud.*

*Tough to talk easily. Separate spaces would be better but I understand why that would be difficult to set up.*
