Huntingtown  
Please continue working toward completing the comprehensive plan. The current plan is way behind the times. We need a plan we can follow to give the 90,000 folks here something that is understandable. There has been change that should be reflected in the plan - change that the current comprehensive plan did not expect but change that did occur (people moved here). People that live here expect resources , shopping, nice schools, and affordable housing. Please hurry up and finish the comprehensive plan.
