Calvert County Planning Commission,

Dear Members,

This subject has been remarked upon many times but never seems to get the attention of the appropriate persons so I will try once more IN WRITING in hopes that it may catch someone's eye.

The problem is that I recently learned that you have enlarged the area of the Owings Town Center on the north side of Route 260 which is not a major problem. But you have done nothing about the fact that on Route 778, one side of the street is in the town center and the other side is not. This means that while those of us on the west side of 778 must ask permission for everything, those on the east side may do as they like no matter how it looks. We have a lovely aluminum quonset hut to prove that up near the Owings Post Office . It was placed there by the previous occupants of the home. Please look into this and make the change which should not be a difficult thing to do. It does not make the town center much bigger but is more a protection for those of us on the west side of the road. Thank you for your attention.
