Dear Calvert County Business,

The Calvert County Department of Public Works, Solid Waste Division, appreciates your participation in the 2022 Annual Hauler Recycling Reporting Survey. As part of the Maryland Recycling Act, Calvert County is required by the Maryland Department of Environment (MDE) to recycle at least 20% of its generated waste.

By participating in this annual survey, you are providing significant and helpful information to calculate Calvert County's annual recycling rate. The annual recycling rate is measured by compiling data from completed Annual Recycling Reporting surveys submitted by Calvert County businesses, waste haulers and recycling processors. With everyone's participation, the Solid Waste Division can provide MDE with accurate recycling data that can be used to measure the county's recycling rate, an indicator of the recycling efforts in Calvert County.

Please note that the survey information you provide is only viewed by Calvert County Government's recycling staff. If you have any additional questions or need assistance completing the survey, please feel free to contact the Recycling Coordinator.

Sincerely,

Mariia Liubarskaia  
Recycling Coordinator
