¹A nonconforming use is the use of a structure or land that existed prior to zoning, or at one time lawfully conformed to applicable zoning regulations, but because of the adoption of the Zoning Ordinance or subsequent amendments to the Ordinance no longer conforms to applicable regulations. If a change to the Zoning Ordinance results in an existing nonconforming use being permitted as a special exception use, the use shall be considered a conforming use. The owner shall be deemed to have obtained special exception approval for the scope of use in effect at time of adoption of this Ordinance.

Authority to Continue: Nonconforming uses, structures, site elements, or signs may continue even if ownership of the property changes. A use, structure, site element, or sign that was illegal as of the effective date of this Ordinance, remains illegal.

Change of Use: A nonconforming use can only be changed to a use allowed within the zoning district where it is located. When a nonconforming use has been changed, in whole or in part, to an allowed use, the whole or part that conforms cannot be changed back to a use that is not allowed in the district. A change of use occurs when an existing nonconforming use has been terminated and another conforming use has commenced. Any change in use in violation of this Ordinance is deemed an abandonment of the previously existing nonconforming use.

Discontinuance or Abandonment: If a nonconforming use or seasonal nonconforming use is discontinued or abandoned for 12 consecutive months, the nonconforming use is terminated. This time period may be extended by the Zoning Officer for an additional six months. The request for an extension shall be submitted in writing to the Department of Planning & Zoning prior to the termination of the nonconforming use.
