

AN ORDINANCE PERTAINING TO THE AMENDMENT OF THE CALVERT COUNTY COMPREHENSIVE SOLID WASTE MANAGEMENT PLAN 2013 UPDATE, INCLUDING A NEW STATE LAW PASSED THAT AFFECTS APARTMENTS AND CONDOMINIUMS AND INCLUDING BASIC EDITORIAL UPDATES TO THE CURRENT 2006-2008 CALVERT COUNTY COMPREHENSIVE SOLID WASTE MANAGEMENT PLAN (SWTA#14-01).

WHEREAS, pursuant to the authority contained in Title 9, Subtitle 5 of the *Environment Article* of the Maryland Annotated Code, the Board of County Commissioners of Calvert County, Maryland has general powers to adopt and amend a County plan addressing the Solid Waste Management Plan and has heretofore adopted the 2006-2018 Calvert County Comprehensive Solid Waste Management Plan by Resolution 49-10 (The “Comprehensive Solid Waste Plan”);

WHEREAS, Section 9-503 of the *Environment Article* of the Maryland Annotated Code, requires that the Plan be reviewed and updated, if necessary, by the County every three years;

WHEREAS, the Calvert County Department of Public Works has prepared the following recommended revisions to the Comprehensive Solid Waste Plan;

WHEREAS, the Calvert County Planning Commission discussed the proposed revisions (SWTA #14-01) to the Comprehensive Solid Waste Plan on May 21, 2014 and found that the proposed revisions are consistent with the County’s Comprehensive Plan;

WHEREAS, after due notice was published, the Board of County Commissioners conducted a public hearing on June 15, 2014, at which time the proposed revisions were discussed, staff’s recommendations were considered, and public comment was solicited; and

WHEREAS, after considering the evidence which had been presented at the public hearing regarding the proposed revisions and the recommendation of the Department of Public Works and the Planning Commission, and in furtherance of the public health, safety and welfare, the Board of County Commissioners of Calvert County, Maryland finds it is in the best interest of the citizens of the County to adopt the recommended revisions to the Comprehensive Solid Waste Plan as set forth below.

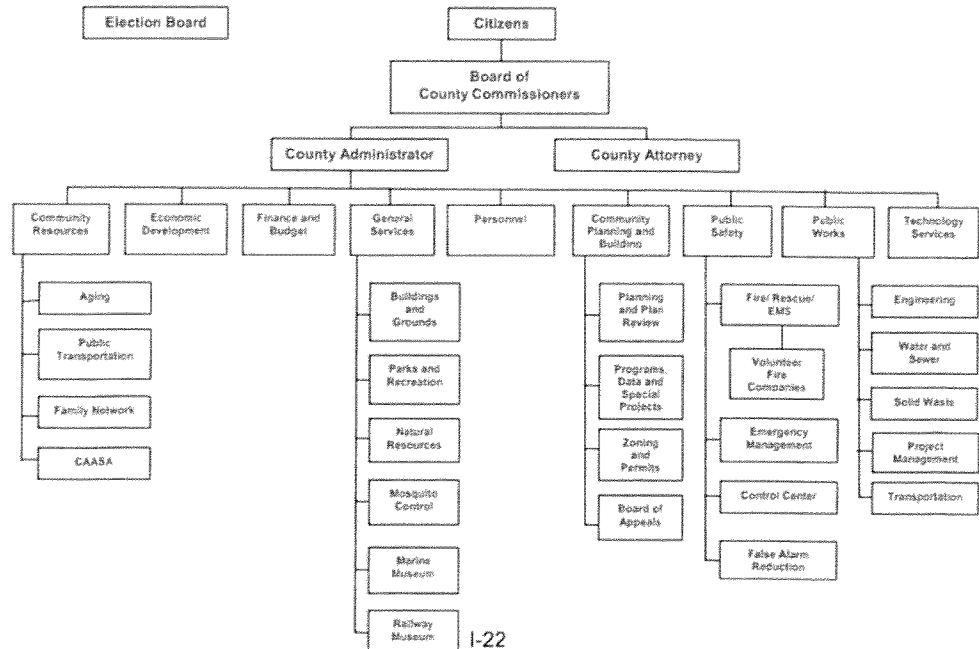

NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners of Calvert County, Maryland, that within the Comprehensive Solid Waste Plan:

1. Every reference throughout to “Planning and Zoning” is redacted and, in its place, inserted “Community Planning and Building;”
2. Every reference throughout to “Convenience Center” is redacted and, in its place, inserted “Customer Convenience Center;”
3. The undefined term of art “MRF” is defined as being a “Material Recovery Facility;”

4. The undefined term of art “Non-MRA” is defined as being a “Non-Maryland Recycling Act;”
5. The following is appended to Chapter 1, Part D.2.a.1:
 - xix. Recycling – Public Schools Plans (2009): An Act requiring a county recycling plan to address the strategy for the collection, processing, marketing and disposition of recyclable materials from county public schools.
 - xx. Fluorescent and Compact Fluorescent Lamp Recycling (2010): An Act requiring a county recycling plan to address the strategy for the collection and recycling of fluorescent and compact fluorescent lamps that contain mercury.
 - xxi. Recycling – Apartment Buildings and Condominiums (2012): An Act requiring a county recycling plan to address the collection and recycling of recyclable materials from residents of apartment buildings and condominiums that contain 10 or more dwelling units by property owners or managers of apartment buildings and councils of unit owners of condominiums. Further, if applicable, a method for implementing a reporting requirement for recyclable materials generated at apartment and condominiums that contain 10 or more dwelling units.
 - xxii. Recycling Rates and Waste Diversion – Statewide Goals (2012): An Act revising the 1988 MRA, requiring a County Plan to address a reduction through recycling of at least 20% of the county’s solid waste stream.
6. The following is appended to Chapter 1, Part D.3:
 - m. Board of County Commissioners of Calvert County, Maryland, Resolution pertaining to the Adjustment of User fees at the Calvert County Landfill.

The Board of County Commissioners adopts the budget each year. The budget has a listing of Scheduled Fees that apply to the solid Waste budget establishing a base users fee of \$113 and an adjustment of \$2 per year per improved real property thereafter effective July 1, 2012.

7. Figure I-1 is redacted in its entirety and, in its place is inserted the following:

8. The following changes are made to Figure I-2:
 - a. Redact “Office Specialist II” and, in its place, insert “Recycling Program Specialist”;
 - b. Redact “Operations Supervisor” within the center column and, in its place, insert “Convenience Center Supervisor,” and
 - c. Redact “Compactor Operators” under the heading “Operations Supervisor” in the far right column;

9. The third paragraph of Chapter 3, Part A.1 is redacted and, in its place, is inserted the following:

The residents of the Town of North Beach receive waste collection services through a municipal contract with Southern Maryland Recycling, Inc. The municipal trash is taken to the Federal IPC in Washington, D.C. or the Calvert County Transfer Station for transfer and disposal and the Town is charged the standard tipping fee by the respective Contractor or the County. Commercial trash in the Town of North Beach is collected by commercial haulers as this is not a service that is provided by the Town. Residents of the Town of Chesapeake Beach receive residential waste collection through a contract that the Town administers with Southern Maryland Recycling. This waste is also delivered to the Calvert County Transfer Station for transfer and disposal and the Town is charged the standard tipping fee by the County.

10. The sixth paragraph of Chapter 3, Part A.1 is redacted and, in its place, is inserted the following:

Calvert County has two incorporated municipalities: (1) the Town of

North Beach; and (2) the Town of Chesapeake Beach. Residents in the Towns receive waste collection services through contracted services (as discussed in section A.1. above). In 2012, the County reports that approximately 1,357 tons of residential waste from the Town of North Beach and 2,259 tons of residential waste from the Town of Chesapeake Beach were received for disposal through the Calvert County Transfer Station. In addition, the Town of North Beach's contractor delivered 123 tons of recyclables to the market at CRINC in Prince George's County Appeal Convenience Center. The Town of Chesapeake Beach also contracts for curbside recycling services and an estimated 328 tons were reportedly delivered by the contractor directly to market at CRINC in Prince George's County. Businesses in the Towns must contract for waste collection independently or self-haul wastes to a processing/disposal site. Waste quantities from the municipalities are included in the quantities shown in Table III-7, as of 2006.

11. The following is appended to Chapter 3, Part A.1:

It is the responsibility of the Calvert County Board of County Commissioners (BOCC) to ensure the implementation of the Apartment Building and Condominium Recycling (ABCR) Programs. In April 2012, the Maryland General Assembly passed House Bill 1, Environmental-Recycling – Apartment Buildings and Condominiums requiring recycling in all apartment buildings and condominiums that contain 10 or more dwelling units. This plan is to be implemented in compliance with State Law as of October 1, 2014.

A. Apartment Building and Condominium Recycling Program:

Through the cooperation of the County Office of Recycling and owners or managers of apartment buildings or councils of unit owners of condominiums ("apartment and condominium officials"), and other stakeholders involved in the implementation of this law, the County has identified nineteen (19) apartment buildings and eight (8) condominiums that currently fall under the scope of the law. The County Office of Recycling has met with the apartment and condominium officials and discussed the requirement of the law including the materials that must be recycled (i.e. aluminum and steel cans, glass and plastic bottles, jugs and jars and mixed paper including cardboard) at the identified locations.

Apartment and condominium officials identified how the recyclable materials will be stored, collected and transported to the recycling markets. Apartment and condominium officials must report to the County Recycling Coordinator on an annual basis details on the required recycling activities. Other program requirements include:

1. Recyclables designated for recycling at a minimum:
 - a. Aluminum and steel cans;
 - b. Glass and plastic bottles, jugs and jars; and
 - c. Mixed paper.

2. Collection of designated materials:

Apartment and condominium officials are responsible for providing all containers, labor and equipment necessary to fulfill recycling requirements throughout their buildings. Distinctive colors and/or markings to designate recycling containers should be provided to avoid contamination. The apartment and condominium officials must ensure collection and transportation of recyclable materials from apartment and condominium locations to markets.

3. Marketing of Recyclable Materials:

Apartment and condominium officials are responsible for the marketing of their recyclables. The apartment condominium officials shall submit annual reports detailing the recycling tonnage removed from the apartment and condominium and the haulers and markets for the materials.

B. Stakeholders:

1. County Commissioners – Responsible for adopting the Maryland Department of the Environment (MDE) approved language of ABCR Program for the Plan amendment.

2. County Department of Public Works – responsible for overseeing County Office of Recycling activities and assuring that all apartment buildings and condominiums that fall under the requirements are included in the ABCR Program.

3. County Division of Solid Waste – Communicate the requirements of the law to the apartment and condominium officials. Assist apartment and condominium officials in developing a recycling program, if so requested. Monitor the progress and performance of the ABCR Program. Develop the requirements of an ABCR Program in conjunction with input from apartment and condominium officials. Update the County's recycling plan to include the ABCR Program and amend the Comprehensive County Solid Waste Management Plan. Develop a recycling reporting survey to be used by apartment and condominium officials in reporting recycling activities.

4. County Office of Planning – Responsible for amending the Solid Waste Management Plan to include ABCR Program.
5. Owner or Manager of the Apartment Building or Councils of the Unit Owners of Condominium – Responsible for providing recycling to the residents of each apartment building or condominium by October 1, 2014. Indicate level of self-performance to provide recycling collection from residential building locations or secure and manage recycling contracts with a contractor. Perform record keeping and may report to the County on an annual basis.

C. Participating Apartment Buildings and Condominiums in ABCR Program:

1. Apartment Buildings:

NOTE: New apartment buildings and condominiums that will fall under the requirements of the law shall begin participating in the ABCR program within three (3) months of being notified by the County.

D. Development and Implementation Schedule of the ABCR Program:

1. On or about, October 31, 2013, the County will distribute MDE approved language of the ABCR Program to apartment and condominium officials for their program development and implementation.
2. On or about, March 1, 2014, apartment and condominium officials will begin to educate their residents about their ABCR Program and discuss the requirements of the law.
3. On or about, May 1, 2014, apartment and condominium officials will provide recycling information, training or assistance to their residents and advise them of the date, when and what the residents can start recycling at their building.
4. No later than October 1, 2014, apartment and condominium officials shall have in place a collection program for recycling, including at a minimum, the designated recyclables listed in Section A(1) above and a copy of their plan shall be provided to the County Recycling Coordinator.

E. Program Monitoring:

The County Office of Recycling shall oversee the progress and performance of the ABCR Program. However, the apartment and condominium officials will conduct inspections, review service levels, investigate reported or unreported pick-up and disposal complaints, meet with residents or recycling staff to educate or review recycling practices and, if applicable, meet with and review compliance with the recycling contractor. Any issues which arise from these visits that are deemed deficiencies on the part of the residents or recycling contractor will be detailed in writing and reported to the violator manager or

owner. The apartment and condominium officials shall initiate actions to correct all deficiencies within sixty (60) days of being notified.

The apartment and condominium officials will also be available to conduct educational seminars and/or tours regarding new materials, practice and procedures for residents. Also, the owner, manager or council shall be responsible to keep the residents current on new regulations, laws and mandates affecting recycling in their apartment buildings or condominium.

F. Program Enforcement:

The County Division of Solid Waste will ensure that the recycling at apartments and condominiums will be implemented in accordance with Section 9-1703 and 9-1711 of the Environment Article, Annotated Code of Maryland and enforcement will be performed in accordance with the County Code.

12. The first paragraph of Chapter 3, Part A.4.b is redacted and, in its place, is inserted the following:

As of 2013 in Calvert County, there are a total of 41 schools -- 25 public schools and 16 non-public, or private, schools. Approximately 15,961 students are enrolled in the public school system. This includes County alternative schooling and special education, but excludes vocational schools. There are approximately 1,397 students in the non-public schools system. The public school system includes thirteen elementary schools with an enrollment of 6,777; six middle schools (6th through 8th grades) with an enrollment of 3,767; and four high schools with an enrollment of 5,338. The public school system also supports a special education school with an enrollment of 54 and a vocational school through the Calvert County Career Center. There are also 25 students in the County alternative school system. The private school system has eight kindergarten/pre-kindergarten schools, four elementary schools and four combined (elementary and secondary) schools. The breakdown of student enrollment in the non-public schools is by grade level rather than by type of school. Table III-9 shows the Calvert County schools and total student enrollment as of 2006.

13. Within the second paragraph of Chapter 3, Part A.4.b redact the reference to "Calvert Trash" and, in its place, insert "Waste Management."

14. The third paragraph of Chapter 3, Part A.4.b is redacted and, in its place, is inserted the following:

It is the responsibility of the Calvert County Board of County Commissioners (BOCC) to ensure the implementation of the Calvert County Public Schools' (CCPS) recycling programs. The BOCC directs

that the Calvert County Board of Education (CCBOE) and the Community College of Southern Maryland Board of Trustees (CCSMBOT) have the responsibility for developing the recycling plans and implementing the recycling programs for all of their respective schools. If needed, the BOCC may also direct the Calvert County Department of Public Works, Division of Solid Waste to develop recycling plans and implement recycling programs for the respective schools.

15. Chapter 3, Part A.4.b, Subpart (1)(c) under the heading "Calvert County Public School Recycling Plan" is redacted and, in its place, is inserted the following:
 - c. The recycling contractor must report, by February 14th of each year, to the CCPS' Director of School Facilities or Supervisor of Operations, the amount and type of recyclables collected for the previous calendar year (*e.g.*, the February 14, 2010 contractor report would contain the totals for calendar year 2009).
16. Chapter 3, Part A.4.b Subpart (1)(g) under the heading "Calvert County Public School Recycling Plan" is redacted and, in its place, is inserted the following:
 - g. Subject to approval by the CCPS Central Office, each county public school is free to pursue their own separate recycling contract for materials as a method of increasing their school's income to fund their school's programs. Any independent contract a school, or a club within the school, may enter into will not exempt the school from having to collect the materials identified in the CCBOE contract (B.1.a., above).
17. The street address of Calvert Middle School at Chapter 3, Part A.4.b, Subpart (2)(a) under the heading "Calvert County Public School Recycling Plan" is changed to: 655 Chesapeake Blvd.
18. The street address of Calvert High School at Chapter 3, Part A.4.b, Subpart (2)(a) under the heading "Calvert County Public School Recycling Plan" is changed to: 520 Fox Run Rd.
19. The reference to "PSC Environmental Services" at Chapter 3, Part A.6, Paragraph 4 is changed to "Clean Venture, Inc."
20. The fourth paragraph of Chapter 3, Part A.8 is redacted and, in its place, is inserted the following:

In addition, the County has an "e-Cycling" (electronics recycling) program. The Customer Convenience Centers at Appeal, Ball Road, Barstow, Huntingtown, Mt. Hope and Plum Point all have permanent electronic recycling containers. The program includes the acceptance of computers, monitors, printers, VCRs, DVD players, two way radios, stereos, scanners and televisions. Electronic devices will be expanded

upon grant funding availability under the Statewide Electronics Recycling Program. The items are stored in 40 yard enclosed boxes and brought to Appeal Municipal Landfill for sorting and loading into trailers. Once the trailer is full it is shipped to eRevival LLC for recycling processing. Lamps (Fluorescent, incandescent and other types of lamps) are accepted at all of the County Customer Convenience Centers and collected and stored by the County at the Appeal Landfill until sufficient quantities for shipping are obtained to be recycled by AERC.COM LLC. Recycled electronic item quantities from this program are included in Tables III-1(a) and III-1(b).

21. The fifth paragraph of Chapter 3, Part A.8 is redacted and, in its place, is inserted the following:

The County also participates with the State of Maryland in a program to recover abandoned boats. When a State contractor picks up an abandoned boat in or near Calvert County, the County accepts the item at the Appeal Municipal Landfill. Tonnages of abandoned boats are not maintained separately from non-abandoned boats and trailers. The metal boats are crushed at the Landfill and included in the scrap metal recycling quantities. Wood and fiberglass boats are broken down and inspected by landfill staff to ensure they are free of metal and fluids and disposed of in the Transfer Station unless they are unable to handle the boat in which case they are landfilled directly in the Appeal Municipal Landfill.

22. Subparts (a) through (f) of Chapter 3, Part A.12.b are re-designated with bullet points.
23. Chapter 3, Part A.12.a "Agricultural Wastes" is re-designated Part A.12.c.
24. Chapter 3, Part A.12.b "Recreational Waste Facilities" is re-designated Part A.12.d.
25. Chapter 3, Part A.12.c "Used Motor Oil, Antifreeze and Used Oil Filters" is re-designated Part A.12.e
26. Chapter 3, Part A.12.d "Petroleum-Contaminated Soil" is re-designated Part A.12.f and subparts (g) through (i) thereunder are re-designated with bullet points.
27. Chapter 3, Part A.12.a "Special Event/Other Waste" is re-designated Part A.12.g.
28. The goal of 15% set forth in the first paragraph of Chapter 3, Part A.13 is changed to 20%.

29. The reference within Subpart (j) of the list following the first paragraph of Chapter 3, Part A.13 to the "Mt. Hope Convenience Center" is changed to the "Mt. Hope Community Center."
30. The following is appended to the end of the list following the first paragraph of Chapter 3, Part A.13:
 - o. Recovery of plastic film and rigid plastic for recycling.
31. The reference to "Calvert Trash, a division of Republic Waste services" in the third paragraph of Chapter 3, Part A.13 is redacted and, in its place, inserted "Southern Maryland Recycling."
32. The fourth paragraph of Chapter 3, Part A.13 is redacted and, in its place, is inserted the following:

The County recognizes that many County residents and visitors generate recyclable containers at various marina facilities. The County had previously supplied "Igloo" recycling containers for the recovery of glass bottles and jars and metal cans to private marinas and County boat ramps. Due to contamination issues, most public containers had to be removed, however some of the containers at private marinas were retained. These few remaining "Igloo" containers at private marinas and at the County's Breezy Point Beach & Campground are reportedly collected by County staff, and the recyclables from these sites are taken to the Appeal Municipal Landfill or a County Customer Convenience Center sites to be mixed with other residentially generated recyclable materials.
33. The fifth paragraph of Chapter 3, Part A.13 is redacted and, in its place, is inserted the following:

The County collects corrugated cardboard and mixed office paper from County government buildings and selected business generators in the County. These materials are hauled by County staff to a privately-operated mixed paper processing facility in Prince George's County, Maryland (CRINC). County schools have capabilities within their buildings for the collection of cardboard and mixed paper. The school system is active in the collection and recycling of these materials under a contract with a private hauler.
34. Every reference throughout to "World Recycling Co" or "World Recycling Company" is redacted and, in its place inserted "CRINC."
35. The eighth paragraph and list following at Chapter 3, Part A.13 is redacted and, in its place, is inserted the following:

Recyclables that are transported directly to the CRINC MRF by the County include:

- Commingled containers including: Glass bottles and jars (clear, green and brown), metal cans, and all plastic food and beverage containers #1-7.
- Newspaper, magazines, hardback and paperback books, mixed paper, and cardboard.

36. Subparts (l) through (q) following the tenth paragraph of Chapter 3, Part A.13 are re-designated with bullet points.

37. Every reference throughout to “Yowell Equipment and Demolition” is redacted and, in its place, is inserted “Southern Maryland Recycling.”

38. The third bullet following the tenth paragraph of Chapter 3, Part A.13 redacted and, in its place, is inserted the following:

- a. Textiles are picked up by Mid Atlantic Clothing (M-A-C) Textiles from each of the Customer Convenience Centers and other Division of Solid Waste approved facilities in the County.

39. The sixth bullet following the tenth paragraph of Chapter 3, Part A.13 redacted and, in its place, is inserted the following:

- a. Fluorescent and Compact Fluorescent Lamps, Incandescent Lamps, Metal-Oxide, Halogen and Other Lamps are collected from residents at Customer Convenience Centers and staff of County government buildings for transport to Appeal Municipal Landfill. These lamps are hauled by County staff to the Appeal Municipal Landfill where they are sorted and placed in shipping containers for recycling under a contract with AERC.COM, a private recycling company.

40. The following is appended to Chapter 3, Part B.2:

The County has met or exceeded its recycling goals and requirements since 2010.

41. Subparts (r) through (t) following the fourth paragraph of Chapter 3, Part C are re-designated with bullet points.

42. The third paragraph at Chapter 3, Part D is redacted and, in its place, is inserted the following:

The Town of North Beach contracts directly with Southern Maryland Recycling, Inc. for residential curbside solid waste and recycling collection. Solid waste is collected twice a week and recyclables are collected every other week. Curbside recycling services include: tin

and aluminum cans; plastic and glass bottles and jars; and newsprint. Bulky item (trash) pick up, also performed by the contractor, is scheduled for every other week, opposite the recycling week. Commingled recyclable containers and recyclable paper are collected and transported by the Contractor to the CRINC MRF. The municipal trash is taken to the Federal IPC or Calvert County Transfer Station for transport and disposal; the Town's contractor is charged the standard tipping fee by the County. Commercial trash in the Town of North Beach is collected by commercial haulers as this service is not provided by the Town.

43. Chapter 3, Part E.1(e) "Convenience Centers" is re-designated Part E.1(b) "Customer Convenience Centers."
44. Chapter 3, Part E.1(f) "Major Mulching Sites" is re-designated Part E.1(c).
45. Subparts (u) through (aa) following the first paragraph of Chapter 3, Part E.1(b) are re-designated with bullet points.
46. The second paragraph of Chapter 3, Part E.1(b) is redacted in its entirety and, in its place, is inserted the following:

All sites listed above are equipped with stationary compactors, except the Appeal Municipal Landfill, which has 4 roll-off boxes for residential waste. Enclosed roll-off boxes have been sited for the recovery of residential recyclables delivered by County residents to the Customer Convenience Centers. Used motor oil, oil filters and antifreeze also are collected at the Customer Convenience Centers for recycling. None of the Customer Convenience Centers are permitted to accept or store household hazardous wastes. Household hazardous waste is now collected four times per calendar year as scheduled – two times per year at Appeal Municipal Landfill and two times per calendar year at Mt. Hope Community Center. These collections are performed under agreement with the Maryland Environmental Service for their contractor to come on site and collect the household hazardous materials directly from homeowners.
47. Chapter 3, Part E.2(g) "Land-clearing Debris Landfills" is re-designated Part E.2(b).
48. Chapter 3, Part E.2(h) "Natural Wood Waste Recycling Facility" is re-designated Part E.2(c).
49. Chapter 3, Part E.2(i) "Major Mulching Sites" is re-designated Part E.2(d).
50. Chapter 3, Part E.2(j) "Processing Facility" is re-designated Part E.2(e).

51. The first paragraph of Chapter 3, Part E.2(e) is redacted and, in its place, is inserted the following:

BFI Waste Services, LLC operates the Southern Maryland Processing Facility, owned by Wayson Land Holdings, LP and located at 7659 Binnacle Lane in Owings, Maryland (MGC N310,000 E910,000). This facility accepts C&D type wastes from sources in Calvert County in addition to sources in several other Southern Maryland counties and Washington D.C. Over one-third of the total 49,776.43 tons received in 2006 came from Calvert County. Although this is permitted as a Processing Facility, over 99% (ninety-nine percent) of the material received at this facility was reported to be transferred for disposal out of State in Virginia at the private 623 Landfill, owned by Republic Waste Services, Inc. Of the less than one percent (0.4%) of the materials received at this facility which were reportedly recycled, two-thirds was scrap metal and the balance consisted of concrete, yard waste, and cardboard.

52. The first paragraph of Chapter 4, Part A is redacted and, in its place, is inserted the following:

While the current systems of waste collection in the County have been adequate to meet the solid waste and recycling collection needs of County residents and businesses, with the significant growth in population and increased tourist traffic, there are days when certain of the County's Solid Waste Customer Convenience Centers are overburdened. It is estimated that over 65 percent of single-family residences in the County are served by these Customer Convenience Centers. In addition to two municipalities, there is currently over 500 subdivisions and seven town centers (consisting of 2 major town centers and 5 minor town centers) wherein 77 percent of the County's 26,833 single-family households reside. The County could consider the development of a County-administered system of contracted districts for curbside collection of solid waste and, potentially, recyclables for single-family residences and possibly certain multi-family dwellings. This system could be for the entire County or a substantial portion of the County. This collection arrangement could replace the open market, subscription collection system and the use of Customer Convenience Center sites for residents to drop-off residential waste and certain recyclables, which has been longstanding in the County. Under this new system, the County could be responsible for contracting residential waste and, potentially, residential recyclables collection to private collectors through a competitive proposal or bid process. Under this system, collection of commercial waste and recyclables would remain an open market subscription system.

53. The sixth paragraph of Chapter 4, Part D.5(a) is redacted and, in its place, is inserted the following:

The Emergency Response Division, MDE, would be notified of the incident. The Calvert County Hazardous Materials Response Team, as a part of the Calvert County Sheriff's Special Operations Team, would make a determination whether an Emergency Response Team should be called in from another jurisdiction. The County can call in an Emergency Response Team from Prince George's County, Anne Arundel County, Montgomery County, local military installations, and Fairfax County, Virginia, among others. If an Emergency Response Team responds, control of the scene reverts to that Team.

54. The second paragraph of Chapter 5, Part B is redacted and, in its place, is inserted the following:

Currently, the seven staffed Customer Convenience Centers , each equipped with residential waste and recycling drop-off containers (Lusby, Huntingtown, Plum Point, Ball Road, Mt. Hope, Barstow, Appeal), are in operation and serving the County's needs. However, as discussed in Chapter Four, the County has investigated the possibility of developing County-administered contract districts for residential waste and, potentially, recyclables collection at curbside on a County-wide basis or for a substantial portion of the County. The County staff would consider (1) cost; (2) quality of service provided; (3) potential to increase waste diversion to reuse and recycling; (4) implementation issues and constraints; and (5) long-term benefits to the County and its residents. At present, the County does not intend to implement such collection districts in the near-term, but will re-evaluate this option during the 10-year planning period.

55. The third paragraph of Chapter 5, Part B is redacted and, in its place, is inserted the following:

The County Recycling Plan is incorporated in this Plan. The Recycling Plan has been substantially implemented and will continue to be implemented within the programs included in this Plan. The County will continue to evaluate and expand the County recycling programs, as appropriate, to meet or exceed the State-mandated recycling goals established by the Maryland Recycling Act and other recent State legislation.

56. The goal of "15 percent" set forth in the second numbered paragraph under the heading "Specific Recommendations" of Chapter 5, Part B.2 is changed to "20 percent."

000456216

57. Delete the phrase “, as appropriate” at the end of the first paragraph of Chapter 5, Part C.
58. Every reference within Chapter 5 to “King George Landfill” is redacted and, in its place, inserted “Shoosmith Landfill;”
59. The second numbered paragraph under the heading “Specific Recommendations” of Chapter 5, Part F.3 is redacted and, in its place, is inserted the following:
 2. Continue operation of the County’s Household Hazardous Waste collection program at the approved Appeal Municipal Landfill and Mt. Hope Community Center and continue to promote their use by County residents.

BE IT FURTHER ORDAINED by the Board of County Commissioners of Calvert County, Maryland that the Calvert County Comprehensive Solid Waste Management Plan shall otherwise remain in full force and effect;

BE IT FURTHER ORDAINED by the Board of County Commissioners of Calvert County, Maryland that the foregoing recitals are adopted as if fully rewritten herein;

BE IT FURTHER ORDAINED by the Board of County Commissioners of Calvert County, Maryland that, in the event any portion of the Comprehensive Solid Waste Management Plan is found to be unconstitutional, illegal, null or void, it is the intent of the Board of County Commissioners to sever only the invalid portion or provisions, and that the remainder of the Comprehensive Solid Waste Management Plan shall be enforceable and valid; and

BE IT FURTHER ORDAINED by the Board of County Commissioners of Calvert County, Maryland that this enactment shall be effective upon approval of the Maryland Department of the Environment pursuant to Section 9-507 of the *Environment Article* of the Maryland Annotated Code and without publication of a fair summary.
